About

Design, for me, is a experience/ naration of a story, while executing complex ideas into action by channelling the right energy andinspiration towards a set goal.

As a design student I enjoy a variety of design-related topics. I've dabbled in a variety of manual and digital fields, like illustration, graphic design, fashion styling and modeling, animation, product design, and photography. I'm constantly drawn to the artwork I come across, my interest in pop/rap culture, Indian dark academia, and vivid music has provided me with enough food for thought. I'm motivated to learn in order to get closer to my goal of becoming a versatile artist. I am always egerly drawn to traditional art styles, and I never pass up the opportunity to incorporate them into my work.

Education

2023 - Present

Atlas SkillTech University

ISDI - BDes in CommunicationDesign

2021 - 2023

Nirmala Foundation College of Commerce and Science

HSC - Science

2005-2020
